

TOKIMUS BIOTECH

# COVID-19 Test Kits for North America

## THE TOKIMUS ADVANTAGE

### EXPERTISE

A balanced team with particular expertise in disease, medicine, U.S importing and international finance.

### AFFORDABILITY

Fair pricing to help communities and governments manage the COVID-19 crisis.

### REGULATORY APPROVALS

Our products are FDA approved under Section 564(c) of the Emergency Use Authorization (EUA) pursuant to Section 564 of the Federal Food, Drug, and Cosmetic Act. Tested by the National Institute of Health (NIH). The tests are legally approved for sale in the U.S. (MDEL #14182 for export into Canada)

### RELIABILITY

ISO 13485-certified, high-capacity manufacturers known internationally for quality and reliability.

### CAPACITY

Our distributors can produce 500,000 kits per week and can ramp up to 1,000,000 per week.

### COMMITMENT

Exclusive Distributorship for North America.

## A BETTER ALTERNATIVE FOR COVID-19 TESTING

**Tokimus Biotech** was founded by a group of medical experts and importers dedicated to providing fairly-priced, quality disease testing in North America. Recognizing the unmet need for fast and reliable COVID-19 testing, Tokimus is importing FDA/EUA-approved, affordable diagnostic test kits from leading, high-capacity manufacturers in South Korea.

## OUR PRODUCTS

### Polymerase Chain Reaction (PCR) Test

Through throat or nasal swabs, this test detects the genetic information of the virus, or its RNA. This will exist only if the virus is there and someone is actively infected. Samples are sent to centralized labs for analysis. Generally these are the most reliable tests. Accessories include VTM/Swabs and RNA extraction kits. Two versions are available:

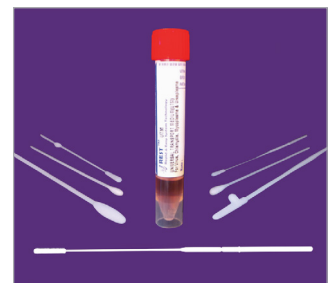

- A) AQ-TOP 30 min, single gene
- B) Also for U-TOP-2 hour, multi-gene, 100% accuracy. Future applications (subject to FDA approval) for use in flu/respiratory testing. The Season PCR test kits are approved in 11 countries.

### MDGen Immunity N1 Test

MicroDigital's AB96-COVID1-19 IgG is an ELISA (Enzyme-Linked Immunosorbent Assay) kit for detection of IgG antibodies to SARS-CoV-2 Nucleocapcid Protein and can be used to confirm past infections or asymptomatic infections. The test is intended for the qualitative detection of total antibodies to SARS-CoV-2 in human serum, providing a valuable aid for identifying individuals with an adaptive immune response to SARS-CoV-2 that indicates recent or prior infection.

Season Biomaterials' COVID-19 RT-PCR Test Kit (Reverse Transcription - Polymerase Chain Reaction)

Nasal/saliva swabs for the PCR and antigen tests.

## OUR PRODUCTS (continued)

### MDGen Immunity S1 Test

MicroDigital's AB96-COVID1-19 SP RBD IgG is an ELISA kit for detection of IgG antibodies to SARS-CoV-2 Spike Protein Multi-Domain. This test can be used to confirm past infections or formation of antibodies after vaccination. For vaccinated recipients, the test helps patients understand how well the vaccine is working and if they need a booster shot.

## OUR SUPPLIERS

### Noble Biosciences Inc.

Headquartered in Hwaseoug, Gyeonggi, South Korea, Noble Biosciences Inc is a manufacturer of collection, transport and preservation systems for the biopsy. The company's products include biopsy swab kits, environmental swab kits, forensic and genetic testing kits, chromogenic and agar plates, diagnostic consumables and others. It also provides research and development services in the areas of in vitro diagnostics and life science. Noble Biosciences serves healthcare professionals and diagnosis centers. The company markets its products worldwide.

For information visit <http://www.noblebio.co.kr/>

### MicroDigital Co., Ltd

Since its founding in 2002, Gyeonggi-do, South Korea-based MicroDigital Co., Ltd. has developed innovative solutions for the biomedical industry through technological advancement and constant development. The company is dedicated to providing technologies that are simple but essential to biomedical laboratories. Due to the company's manufacturing flexibility, Microdigital also provides customized production according to customer's requirements.

## KEY MANAGEMENT

### **Patrick Riggs**

President and CEO

Import/export entrepreneur and financier for over 15 years and a finance consultant and strategy advisor to middle market companies. As Import manager for an international trading company, he developed long term relationships with key Asian trading partners, which led to the supplier relationships now benefiting Tokimus Biotech. Pat attended University of North Dakota in 1990 and completed an independent study program receiving university credits at Harvard Business School in 2019.

### **Jason Liu** CPA, MBA

CFO

Born in Taiwan, Jason received his accounting degree from Aletheia University in Taiwan, then completed his MBA at the University of Houston. Due to his continued ties to Taiwan and Asia, Jason provides valuable insights into the business culture of SE Asia as well as providing many contacts. In his career he has been instrumental in financing both US and foreign entrepreneurial companies.

### **Dr Kevin Rosenblatt** MD, PHD

Medical Advisory-Clinical Review

Dr. Rosenblatt has more than 30 years of clinical and biomedical research and development experience in multiple settings, including academia, biotech, startups, and clinical practice, and he has published over 80 papers and book chapters on cancer and neuronal biology, biomarker development, and clinical genomics and proteomics. Currently, he is President and Medical Director of Consultative Genomics, PLLC, a molecular pathology group specializing in Genomic and Proteomic clinical testing as applied to chronic disease, population health management, and personalized medicine.

### **Allen Edzerza** PhD

Board Advisor

Allen Edzerza is a Tahltan indigenous member and the Chairman of Cheona Health, Inc and also a member of Apple Corp's ESG board. Mr. Edzerza lives in Canada, where he acts as partner for all distribution of virus tests into Canadian markets and interaction with Native Peoples in the U.S and Canada.

### **Eric Seok**

TNF Bio Co, Ltd/Tokimus Managing Director-Asia

Mr. Seok, is principal at TNF Bio, a Seoul-based exporter and distributor of medical products throughout Asia. Mr. Seok represents Tokimus as exclusive agent for COVID-19 products and manages all Asia business dealings, including liaison with various biomedical suppliers.

### **Major General Dr. Elder Granger** MD

Strategic Liaison Advisor:

Dr. Granger is CEO of 5Ps, LLC, a healthcare, education, and leadership consulting firm. He served in the U.S. Army for over 35 years before retiring in June 2009, where he was the Deputy Director and Program Executive Officer of the TRICARE Management Activity, Office of the Assistant Secretary of Defense (Health Affairs) in Washington, D.C. He is a Governance Fellow with the National Association of Corporate Directors. He is also board certified by the American College of Physician Executives, American Board of Medical Quality and American Board of Internal Medicine. Dr. Granger holds numerous medical certifications and earned his medical degree from University of Arkansas School of Medicine. Dr Granger's unique qualifications provide Tokimus strategic insight into pathways to interact with U.S. Federal government to help develop public policy.
